General Release

I am participating in a program at Fort New Salem. I realize that the tin-smith's craft involves working with hot metal and other tools that can cause injury to myself or others in the shop. I also understand that it is my responsibility to take every safety precaution to prevent or limit any injury. These precautions include **wearing safety glasses**, safety shoes or boots, and heat resistant gloves.

* Failure to use these safety devices and follow any instructions from George Brooks or his designee, may result in my immediate removal from the shop.

I agree not to hold George Brooks nor the Fort New Salem Foundation responsible for any injuries to me or any of my property while at Fort New Salem. I also understand that I am personally liable for any damages I cause outside of normal wear and tear to equipment at Blacksmith Shop of Fort New Salem.
